FEED BACK ABOUT SANE DRIVING (OPC)

1. Please refer Trg Dte FHQ Letter No. 16/10/CSMT/WKSP/2017/8408-20 dated 28/07/2018. Sane Driving (OPC) had conducted a workshop at 25 Bn BSF Chhawla for drivers & their Supervisors.
2. The workshop was an eye opener for all the participants as it covered aspects which are not taught in any curriculum. Thereafter, Sane Driving Company organized braking distance experiments at 25 Bn BSF Chhawla with different vehicles in different load conditions. These experiments produced astonishing results and contrary to the notions in the minds of the drivers about their capability to bring vehicle to rest, the braking distance was much more & it was surprising that drivers with more than 20 years of driving experience were not aware of actual braking distance.
3. Sane Driving Company has brought out certain posters on Braking Distance/Blind spots which will prove useful for the BSF drivers. Based on our experience, it is felt that the workshop & the posters of Sane Driving Company can benefit BSF & are recommended for BSF BN's. This will definitely help us make driving safe & reduce accidents.

(Bhupender Singh)
Commandant
25 Bn BSF
